Depth = 4 cm (1.6")

Description

An extremely well presented miniature carriage timepiece. The clock retains the original outer leather case and original key, it is also unusual to see the handle attached to the leather case. The engine turned, silvered masked enamel dial showing Roman numerals, outer Arabic minutes with blued steel hands. Fully serviced-overhauled movement with original escapement. This little clock really does need to be seen to fully appreciate the size and detail.
