Description

Beautiful set of solid oak drawers dating from the early 19th Century. They are of traditional form with two short and three long drawers set on bracket feet with brass drop handles. They are very well made and in good original condition with a lovely warm patina. The drawers run well and it is a generally clean and sturdy set. There are the usual age-related signs of wear and some small shrinkage splits in the side panels but overall a good quality set. The best description comes from the photos so please look at them all carefully and if you have any questions please ask. Nationwide delivery available, please get in touch for an accurate quote.
