Description

1919 Wearne & Son Camborne & Helston silver pocket watch. The watch has a nicely jewelled Swiss stem-winding movement, which is working nicely. The movement is protected by an inner hinged cover. The watch itself measures 50mm diameter excluding the winding crown and the stem. The case is silver and there are silver import marks inside the two case backs for London 1919 with a case importers mark for George Stockwell. The case is in nice condition with just the odd small "ding" to the back. The inner dust cover has light surface scratches. The loop is possibly a later replacement although antique. The watch glass is in good condition with only light marking from use. The white enamel dial is signed with the retailers name Wearne & Son Camborne & Helston. The dial is in nice condition. The watch has its original gold hands. The watch will come in a new presentation box. The watch will be sent in a new presentation box.
