**Date of manufacture: 1900**

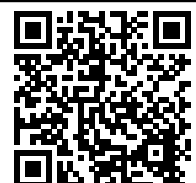

## Description

Antique 1902 Waltham Riverside half hunter pocket watch. The watch has a stem-winding movement which is working nicely. The movement is signed A.W.W.Co, Waltham, Mass, Riverside. 17 jewels adjusted and it has the serial number 12073020 which dates it back to 1902. The movement is protected by an inner hinged cover. The watch measures 50.5mm diameter excluding the winding stem and the loop. The case is 14ct gold filled and was made by the Dennison Watch Case Company. There is some wear to the edges from use but overall the condition is good for its age. The front cover has Roman numerals around a small plastic lens. The numerals are filled with dark blue enamel. The winding crown pushes down to open the front cover. It reveals a white enamel dial with a glass lens which is in good condition. The dial is in nice condition. Blued steel hands designed so that the time can be read when the front cover is closed ... with conventional hands, it would be impossible to tell which hand was which through the small lens. The watch will come in a new presentation box. Price includes worldwide postage.
