Description

This rare scent bottle is an absolute delight, one can't be distracted away from its actual size, it's at least twice the size of the normal Czech Karl Palda perfume bottles that one normally finds. The black enamel decoration is in excellent condition and depicts a female surrounded by flora and fauna. This bottle has come from the estate of Lady Bomanji of Harrogate in England. If you type this into Google you can read all about country house 40 bedroom estate and how it was left in a time warp not touched since the 1930's.
