Description

Outstanding Omega solid 9ct gold gents wristwatch. This is a very fine example of a gents classic wristwatch made by the world renowned premier Swiss maker Omega. The watch has the highly reliable calibre 342 'bumper' automatic movement. An Omega "bumper" is a vintage Omega that has a "bumper" automatic movement rather than a full rotation rotor automatic. The oscillating weight makes a partial rotation before "bumping" into a cushioning spring. The sub seconds dial with gilt baton markers/numbers has been fully restored so is in mint unmarked condition. It has gilt hands and the Omega logo on the winding crown and a genuine Omega buckle. It has been professionally serviced and a new glass has been fitted and is in exceptional condition. As you would expect the watch is fully marked on the dial, movement and case. It comes with a brand new high quality presentation box. The solid 9ct gold case is fully hallmarked. It comes complete with a new premium quality blue Hirsch leather strap but a black or brown one can be fitted if preferred. Omega are one of the most exclusive watchmakers in the world and this watch certainly has that understated elegance that whisper...
