

SA471663

A gents 1926 Waltham wrist watch

Price

Sold**Item Reference: SA471663****Date of manufacture: 1920**

Description

A gents 1926 Waltham wrist watch. The watch has a hand-winding movement, grade 361, which is working nicely. The movement is fully signed and the serial number 25,550,935 dates it back to 1926. The watch itself measures 31.5mm diameter excluding the winding crown and the fixed wire lugs. The gold plated case was made in England by the Dennison Watch Case Company... Aaron Dennison had a very close association with Waltham in the US. Overall the case is in good condition for such an early piece... there is some unevenness to the hinged case back and a small 1mm area to the top of the watch where some plate is missing. The lens is in good order. The signed white enamel dial has a short hairline crack to the left of the subsidiary seconds dial. A new leather strap has been fitted. The watch will be sent in a new presentation box. Free worldwide shipping
