Description

A super quality 19th Century walnut turners table with twin rimmed dished top. The rich colour and patination of the walnut is highlighted by the beautifully turned supports, an excellent example of the wood turner's skill. The table stand well with no wobbles and is in good sturdy order. The condition is very good, there are some very minor marks to the top of the table, compatible with age and use, but as you can see from the photographs, these are not detrimental to the charm and appeal of this very attractive table. This beautiful walnut table would be very striking as a lamp or occasional table and would sit equally well in a traditional or contemporary home. c.1850
