Antique Omega full hunter pocket watch

Price

Sold**Item Reference: SA477088****Date of manufacture: 1910**

Description

An antique Omega full hunter pocket watch with double albert. The watch has a stem-winding movement, with the Omega logo, and it is working nicely. The movement is protected by an inner hinged cover (there is a little marking to the cover). The watch itself measures 50mm diameter excluding the winding stem and the loop. The case is gold filled and was made by Joeseph Fahys, a watch case manufacturer who traded from New York until the Great Depression. The case is in lovely condition. The winding crown pushes in to open the front cover. Inside there is a replacement acrylic lens... it is quite usual to find acrylic replacements as it is a much more durable material and it looks so similar to glass. The white enamel dial is in lovely condition and has blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes with a double albert with a swivel fob. The watch will be sent in a new presentation box. Free worldwide shipping
