Description

An English antique silver pocket watch. The watch has an English $\frac{3}{4}$ plate stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch itself measures 50mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside the two case backs for Birmingham 1915 with a case maker's mark for the English company Dennison Watch Case Co. The case is in good condition and the engine turned detail to the back is still nice and crisp. The acrylic lens is in good condition. The white enamel dial has a couple of faint hairline cracks. The watch comes with a single silver chain, 30.5cm long including the T-bar and the clasp, 33g. The watch and chain will be sent in a new presentation box. Free worldwide shipping
