

SA478254

An antique Waltham full hunter pocket watch, 1912

Price

Sold

Item Reference: SA478254

Date of manufacture: 1910

Description

An antique Waltham full hunter pocket watch. The watch has a stem-winding movement, grade 610, which is working nicely. The movement is fully signed and the serial number 18,772,273 dates it back to 1912. The movement is protected by an inner hinged cover... there are scratches on this inner cover. The watch itself measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and was made by the Dennison Watch Case Company (Aaron Dennison had a close association with Waltham). There are a couple of 'pin prick' sized dings to the front cover, and some lengths of wear towards the edge. The winding crow pushes in to release the front cover. Inside there is an acrylic lens which is in good condition. The signed white enamel dial looks good to the naked eye. If viewed closely, there are a couple of short hairline cracks to the chapter ring. Delicate blued steel hands, a subsidiary seconds dial and outer minute markers. The watch will be sent in a new presentation box. Free worldwide shipping
