Sold

Item Reference: SA479656

Date of manufacture: 1920

Description

A 1920s silver Thomas Russell full hunter pocket watch. The watch has a nice quality stem-winding movement which is working nicely. It is protected by an inner hinged dust cover. The watch itself measures 50.6mm diameter excluding the winding stem and the loop. The case is silver and has London import marks for 1923. The engine turned detail on the front and back are crisp and the coin edge is nice and crisp. The case has light surface marks from use but overall it is in nice condition. The winding stem pushes in to open the front cover. Inside there is an acrylic lens which is in good condition. It is very common for the original glass lenses to be replaced and we see this often... it is difficult to tell the difference as they look so similar but they are a lot more durable. The white enamel dial is signed Thomas Russell & Son, Liverpool although a little worn but otherwise it is in nice condition. The watch has its original blued steel hands. The watch will be sent in a new presentation box. Price includes worldwide postage.
