Depth = 83 cm (32.7")

Description

An early 20th Century iron bakery dough bucket and stand. This would have been used to collect dough and move it in the bakery to the next process, hence the mobile stand. The bucket is in good condition with just a small area of wear under the rim, this cannot be seen without careful scrutiny. The stand is in good condition with the wheels running well. The bucket and stand have acquired an attractive rusty patination which is most attractive. This bucket and stand makes a very unusual plant stand and would add interest to any garden. c.1925 Height with stand: 24" (61cm) Width of bucket: 22" (56cm) Width of stand: 32.5" (83cm)

Internal Ref: D360
