## Omega pocket watch, circa 1920

Price

**Sold****Item Reference: SA480449****Date of manufacture: 1920**

## Description

Omega pocket watch, circa 1920. The watch has a stem-winding movement which is working nicely. The movement is signed with the Omega name and the serial number 5,431,448 dates it back to around 1920. The movement is protected by an inner hinged cover. The watch itself measures 50mm diameter excluding the winding stem and the loop. The case is the good quality 10ct gold plated Moon model from the Dennison Watch Case Company, originally "guaranteed to wear 20 years". The case is in lovely condition with just light surface marks from use. The watch glass is in good condition, just a slight nibble to the bevelled edge but barely noticeable to the naked eye. The white enamel dial is signed both with the Omega name, and also the name of the original retailer Parsons Ltd of Bristol who claim to be the oldest jewellers in Britain, with the doors first opening in 1710. The watch comes in a new presentation box. Free worldwide shipping
