Description

Antique 1914 silver Harris Stone pocket watch. The watch has a stem-winding movement which is working nicely. The high grade movement is stamped 17 jewels, Swiss made. The movement is protected by an inner hinged cover which has a little marking but nothing too serious. The watch itself measures 52mm excluding the winding stem and the loop. The case is silver and there are hallmarks inside both of the case backs for Birmingham 1914, with a maker's mark for the English watch case maker Aaron Dennison. The outer case is in good condition with only light surface marks from use. The lens is in good condition. The white enamel dial has two faint hairline cracks to the chapter ring at 10 o'clock but otherwise it is in nice condition. It is signed H. Stone, Leeds and this would have been the original retailer. Blued steel hands, a subsidiary seconds dial and an outer minute track. The watch will be sent in a new presentation box. Price includes worldwide postage.
