Antique Cyma Craftsman pocket watch with chain

Price

Sold**Item Reference: SA485509****Date of manufacture: 1910**

Description

An antique Craftsman pocket watch by Cyma, with chain. The watch has a Swiss stem-winding movement, calibre 998, which is working nicely. The movement is protected by an inner hinged cover. The watch itself measures 50mm diameter excluding the stem and the loop. The case is gold plated and was made in England by the Dennison Watch Case Company. It was usual for movements to be imported into the UK to be cased and prepared for onward wholesale / retail. The case is in good condition, just one slight indentation to the back. The acrylic lens is in good condition. The white enamel dial looks good to the naked eye. If viewed through a magnifying glass then you can see a faint hairline running through number 4. Blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes on a double albert, with each chain measuring approximately 20cm long. The watch will be sent in a new presentation box. Free worldwide shipping
