Depth = 19 cm (7.5")

Description

CONYERS DUNLOP: a good 18th century mahogany BRACKET CLOCK in full working order. The case features a cast brass handle to the pad top; brass slip frame to the front door and cast brass feet. The 8-day movement retains its original verge escapement, striking hours on a bell and repeating hours at will. The dial is lovely with "Strike/Silent" in the arch and pendulum regulation through the dial (hence the two subsidiary dials) plus mock pendulum and date aperture above "VI". 16ins high; 11ins wide; 7.5 ins deep. ***Conyers Dunlop was apprenticed in 1725; became a member of the Clockmakers Company in 1733 and died in 1770.

Internal Ref: 1489
