Description

Superb Omega solid 14ct gold gents wristwatch. This is an incredible example of a gents classic wristwatch made by the world renowned premier Swiss maker Omega. This is a rare Omega Seamaster Automatic, the very first Seamaster chronometer grade COSC movement. An Omega "bumper" is a vintage Omega that has a "bumper" automatic movement rather than a full rotation rotor automatic. The oscillating weight makes a partial rotation before "bumping" into a cushioning spring. The two tone dial has been fully restored so is in mint condition. The case has only been ultrasonically cleaned and hand polished with a soft cloth, all of the edges and surfaces are sharp and even. As you would expect the watch is fully marked on the dial, movement and case. Inside the back are all of the correct markings including the Swiss squirrel hallmark for 14k gold. It comes complete with a new premium quality chestnut brown leather strap. Omega are one of the most exclusive watchmakers in the world and this watch certainly has that understated elegance that whispers class. The watch case measures 35mm in diameter not including the crown. Overall this watch is in incredible condition...

Internal Ref: OMEGA SEAMASTER
