

SA487873

An antique Omega pocket watch with chain

Price

Sold

Item Reference: SA487873

Date of manufacture: 1910

Description

An antique Omega pocket watch with chain. The watch has a stem-winding movement which is working nicely. The movement is signed with the Omega name and the serial number 4,168,900 dates it back to 1912/1913. The movement is protected by an inner hinged cover. The watch itself measures 50mm diameter excluding the winding stem and the loop. The case is nickel... the front of the watch is in good condition while there is some unevenness to the back. The inside of the case back is signed with the early Omega logo. The watch glass is in good condition with just a short 2mm scratch. The white enamel dial has a crack between 11 and 12 but otherwise looks good. The watch comes with a single chain which measures 33cm long including the T-bar and the clasp. The watch and chain will be sent in a new presentation box. Free worldwide shipping
