Date of manufacture: 1930

Description

A 1930s gold plated pocket watch and chain. The watch has a Swiss 15-jewel stem-winding movement (two adjustments) which is working nicely. The movement is protected by an inner hinged cover. The watch itself measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and was made in England by the Dennison Watch Case Company. It is in good condition with just a little marking. The acrylic lens is in good condition. The dial is in good condition and the Breguet style hands are a handsome feature, along with the unusual sub seconds dial with chapter ring. The watch comes with a double albert with each chain measuring 19cm long including the T-bar and the clasp. The watch and chain will be sent in a new presentation box. Free worldwide shipping
