Description

A rare set of five 19th Century graduated copper harvest measures, a quart, one gallon, two gallons, three gallons and four gallons. This superb set of measures all have the HR lead excise seal and are in excellent condition. There are a few surface dents and marks as can be seen from the photographs, the handles, bases and overall body of the measures are all in good order. These antique measures are a wonderful example of rural domestic life in the Victorian age and would make an impressive decorative feature in any interior. c.1850 Height of largest measure: 17.75" (45cm) Diameter of largest measure: 16" (41cm) Height of smallest measure: 7.75" (9.5cm) Diameter of the smallest measure: 6.5" (7cm)
