Width = 20 cm (7.9")

Depth = 30 cm (11.8")

Description

This is a very fine example of a gents classic wristwatch made by the world renowned premier Swiss maker Omega. The watch is the calibre 344 automatic bumper movement and the serial number dates this accurately. An Omega "bumper" is a vintage Omega that has a "bumper" automatic movement rather than a full rotation rotor automatic. The oscillating weight makes a partial rotation before "bumping" into a cushioning spring. The sub seconds dial has been fully restored so is in perfect condition. It has a two tone dial which changes colour slightly in the light and is quite striking. It is rare in as much as it is classed as an oversize watch as it measures 36mm in diameter excluding the winding crown, the majority of watches are 34mm and we have photographed this and a standard watch together so you can get an idea of the size. It also has the Omega symbol on the crown. A new glass has been fitted and the case has been professionally polished so it is in superb condition. As you would expect the watch is fully marked on the dial, movement and case. Omega are one of the most exclusive watchmakers in the world and this watch certainly has that understated elegance that...
