Description

This mahogany kneehole desk dates from the reign of Queen Victoria. It has nine drawers with the original turned wooden handles. A pedestal desk in very clean and tidy condition it is ready to go into service. This example is a little narrower than some at 18 inches deep so may suit a space where something that is a little less wide is useful. A most useable work space mind you at 46 1/2 inches and a good kneehole space. This is good looking piece of furniture that can suit many a home. We have at least half a dozen desks in stock at the moment and a number of writing tables. Always worth checking out our web site. Please always feel free to give us a call if you would like to discuss. 01565 874075
