Description

This is an unusual and most attractive mahogany corner cupboard. The door is shaped so that the sides are glazed making it an ideal display piece.. The base is lovely, sweeping down to the corner. The last photo I have tried to show the base - you would see this attractive feature when it is hung. At the top there is a gallery. The height of the main cabinet is 32" (82cm) but the overall height is 49" (124cm) It is a very interesting and well made piece that really needs to be seen. The distance from the corner out along the sides is 12" (30cm)
