

SA490498

Small antique Swiss silver pocket watch and albertina

Price

Sold**Item Reference: SA490498****Date of manufacture: 1900**

Description

A small antique Swiss silver pocket watch and albertina. The watch has a stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch itself measures 41.5mm diameter excluding the winding stem and the loop. The case is silver and there are Swiss hallmarks inside both of the case backs. Overall the case is in good condition, just a small indentation on the bezel and a slight unevenness to the back but it is very gentle. The watch glass is in good condition. The dial has a couple of minor marks but not too detrimental at all. Pin set blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes on an interesting albertina, probably Continental silver but not hallmarked. The distance from the clasp to the T-bar is 18.5cm so perfect proportions for the pocket watch. The watch will be sent in a new presentation box. Free worldwide shipping
