Description

17th Century Oak Coffer This is a lovely old piece, with a superb patina, the chest has 3 panels on the front and a carved frieze above. The coffer has a flat top, the hinges are blacksmith made strap hinges, the coffer even has its key but sadly the lock is not working. The coffer is sound but as with many pieces of this age it has suffered a woodworm attack in the distant past, this is treated and dead it is not seen as it is underneath. The coffer is 41" long, 19" deep and 25" high JC320

Internal Ref: JC320
