Description

An antique Cyma full hunter pocket watch. The watch has a good quality Swiss stem-winding movement which is working nicely. The movement is protected by an inner hinged cover which has scratching where it has been opened in the past. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold filled. It has two or three small "dings" and some surface marks but overall very acceptable for an antique piece. The winding crown pushes in to open the front cover. Inside there is a glass lens which is in good condition. The white enamel dial is in lovely condition with blued steel hands, a subsidiary seconds dial and an outer minute track. It is signed with the name of the original retailer, H Samuel, Manchester. The watch will be sent in a new presentation box. Free worldwide shipping
