Height = 208 cm (81.9")

Width = 50 cm (19.7")

Depth = 23 cm (9.1")

Description

A classic example of an early Georgian Longcase clock in truly original condition. A pleasure to offer for sale. A typical Georgian oak case of simple but appealing design with long trunk door and stepped pediment hood. The 8 day, 5 pillar movement strikes the hours on a bell. It has just been fully overhauled by our BHI registered staff. The square brass dial has a silvered chapter ring with engraved black Roman numerals, gilded spandrels, and a matted centre. A subsidiary seconds dial and an aperture date dial. Importantly, there are both internal and external minute rings typical of the changeover period between one and two handed clocks. JOHN VALE worked in the Georgian market town of COLESHILL (WARKS.) between 1710 to 1760. Supplied with original winding key (always a good sign a clock has been looked after) and complete with 12 mths guarantee. All cards accepted.
