Description

A 1940s Damas military pocket watch. The watch has a stem-winding movement which is working nicely. The watch itself measures 50mm diameter excluding the winding stem and the loop. The case is nickel and it has the military arrow, or pheon, to the back together with GSTP for General Service Time Piece and the store code. There is some unevenness to the case back but other than that it is in good condition. The lens is in good condition. The dial is in lovely condition too. The paint on the numbers and the infill in the hands has been removed over the years. The watch comes with a leather albert. The watch and albert will be sent in a new presentation box.
