## Description

Circa 1920-1940 a large waterfall chandelier with good quality glass drops that reflect the surrounding colours and the images doesn't do it justice. The chandelier measures approximately 75cm in height up to the ceiling hook that comes with it, and approximately 75cm at the widest point across the arms. There are six lights inside the chandelier and six attached to the arms outside and it has been totally rewired to UK specifications. The top and central band of the chandelier have decorative, gilded brass leaves around matching the design of the lamp holders. As we no longer sell through a retail outlet it can be viewed by appointment in Farnham, Surrey. Alternatively, if the buyer can arrange collection, we will pack it safely and offer a discount on the price. Otherwise please contact us to discuss delivery, thank you.
