Depth = 6 cm (2.4")

Description

An early example of a wheel barometer with a rounded pediment. A deep case with parquetry fan inlays and chequered case side banding. A cast brass bezel to the finely engraved silvered dial with horizontal lettering. A long thermometer scale with mercury thermometer. This is the earliest design of it's style and are seen infrequently. The dial is beautifully engraved 'Testi Fecit'. There are a few Testi makers listed, this is likely to be London circa 1795. Height 36" / 91 cms Width 10" / 16 cms Depth 2 1/2 " / 6 cms From Kembery Antique Clocks Ltd you can expect a genuine barometer that has been set and calibrated. We personally deliver barometers, please contact us for a quote.
