

SA497572

Antique Swiss full hunter pocket watch, circa 1910

Price

Sold**Item Reference: SA497572****Date of manufacture: 1910**

Description

An antique Swiss full hunter pocket watch, circa 1910s. The watch has a Swiss 15-jewel stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch itself measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and was made by the Dennison Watch Case Company who made cases for various watch manufacturers. There is a little patch of surface marking to the front but overall in good condition for an antique piece. The winding crown pushes in to release the front cover, which is then opened with your finger. Inside there is an acrylic lens which is in good condition. Original glass lenses were often replaced with acrylic as it is much more durable. The white enamel dial is in lovely condition, and has blued steel hands, a subsidiary seconds dial and an outer minute track. The watch will be sent in a new presentation box.
