

SA497583

Antique silver English Lever pocket watch, 1910

Price

Sold**Item Reference: SA497583****Date of manufacture: 1910**

Description

An antique silver English Lever pocket watch, 1910. The watch has a stem-winding movement, signed English Manufacture, which is working nicely. The movement has a safety pinion which is a device which prevents damage to the delicate parts of the movement if the mainspring breaks. The movement is protected by an inner hinged cover which has some light surface marking. The watch measures 48mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside the two case backs for Birmingham 1910. The case is in good condition and the engine turned detail to the back is still nice and crisp. The watch glass has a few little marks, nothing too noticeable. The signed dial is in lovely condition with blued steel hands, a subsidiary seconds dial and an outer minute track.
