Description

A quality Cheshire Georgian longcase clock of smaller proportions. An oak case with chequered banded inlays and marquetry panels. Fluted hood and trunk side columns with canted base sides. A brass dial with silvered chapter ring, date and seconds. Blued steel hands and four seasons corner spandrels which is distinctive to this maker. An 8-day duration mechanism striking the hours on a bell with ringed pillars and more unusual layout. The Seddon family of clockmakers are well regarded. Daniel Seddon of Frodsham worked 1754-1785. Height 6ft 6" / 198 cms From Kembery Antique Clocks Ltd you can expect a genuine clock which has been serviced to a high standard. We personally deliver and set the clock up in the UK and part Europe, Worldwide delivery available.
