Description

A French six branch cage chandelier dating from the early 20th Century, of open cage form hung with flat cut glass pendant drops, the six arms are separated by further arms hung with drops and there are three further bulb holders at the internal base of the chandelier. The metal is a silver in colour with a slight verdigris finish. The chandelier is in working condition, however the wiring is of considerable age and it should therefore be re-wired and PAT tested by a qualified electrician. I can arrange to have this done at cost.
