Description

A gents 1934 silver Lurex wrist watch. The watch has a good quality Swiss 15 jewel movement, three adjustments, which is working nicely. The movement is signed Lurex. The watch itself measures 25mm wide excluding the winding crown and 31.5mm high excluding the lugs. The case is silver and there are hallmarks on the hinged case for Glasgow (import mark), 1934. Overall the case is in good condition and the patterning down the sides of the case is a nice feature. There is a "ding" to the case back along with a couple of surface scratches. The lens is in good condition. The dial is in its original finish, there is some marking but still easy to read the time. The painted detail and the infill in the hands has been removed over the years. The watch will be sent in a new presentation box. Free worldwide shipping
