Description

1919 silver pocket watch and chain. The watch has a nice quality Swiss stem-winding movement which is working well. The movement is stamped 15 jewels, Swiss made. The movement is protected by an inner hinged cover. The watch measures 50.7mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside both of the case backs for Birmingham 1919 with the case makers mark for the Dennison Watch Case Co. The case has light surface marking from use and mild bruising to the back but overall it is in nice condition for a 1919 piece. The watch glass is in nice condition. The white enamel dial has a couple of very faint hairline cracks although only visible through a jeweller loupe, but overall it is in nice condition. The watch has blued steel hands. The watch comes on an antique .800 silver albert chain. The chain measures 26cm including the ring and clasp. The chain weighs 19.6 grams and is in nice condition. The watch will be sent in a new presentation box. Price includes worldwide postage.
