Description

Pair of antique French parquetry lamp or side tables with gilt bronze mounts, handles & feet. The mounts are very good quality & check out the rams heads mounts on the tops of the legs. The table tops & lower tier tops have parquetry with satinwood inlay & mahogany or rosewood outside of that. There is more parquetry around the top section. I think the parquetry is kingwood. These tables have single drawers & they are finished all the way around. They are in excellent condition, having just been polished & I would date them to around the 1920's period. These tables could even be used as bedside tables too, so they are very versatile. Width – 21.3?, 54 cm Depth – 16.5?, 42 cm Height – 27?, 69 cm
