

SA502474

1920s Omega pocket watch with chain

Price

Sold**Item Reference: SA502474****Date of manufacture: 1920**

Description

A 1920s Omega pocket watch with chain. The watch has a stem-winding movement, calibre 19LB, which is working nicely. The movement is signed with the Omega name and the serial number 5,604,833 dates it back to around 1920. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and it is in good condition. The case was made by the Dennison Watch Case Company. The company supplied cases to many watch makers to house both Swiss and American movements. The watch glass is in good condition. The white enamel dial has three hairline cracks but they are fairly faint. Blued steel hands, chunky Roman numerals typical of the period, and subsidiary seconds dial and an outer minute track. The watch comes on a single albert with graduated links, 32cm long including the T-bar and the clasp. The watch and chain will come in a new presentation box. Free worldwide shipping
