A gents WW2 Omega wrist  
watch

Price

**Sold**

**Item Reference: SA504609**

**Date of manufacture: 1940**

## Description

A gents WW2 Omega wrist watch. The watch has a hand-winding movement, 30T2 SC (first introduced in 1939) which is working nicely. The movement is signed with the Omega name and the serial number 10,089,389 dates it back to 1944/45. The watch measures 34.5mm diameter excluding the winding crown and the lugs. The case is stainless steel and it is in good condition, as is the lens. The inside of the case back has the Omega mark, together with the case reference 2348. The signed dial is in its original finish, good condition for its age with just a little marking and discolouration. The feuille shaped hands are of the correct period but could be replacements. A new leather strap has been fitted. The watch will be sent in a new presentation box.
