Description

Huge Medieval French Iron Ecclesiastical Inglenook FireBack This is a very old piece, as far as I can find out it was found behind a 19th Century Fireplace. The panel shows various medieval looking religious figures, in each quarter of the panel. The panel has been preserved in good condition, the figures are clear it does have a hole drilled in each corner which can be used to fix it to a wall. Needless to say this is a very heavy piece, it is 55" high and 22" wide MG197 We Give Free Delivery to Mainland England & Wales, Delivery times vary according to your location usually 7 to 28 days We only operate an online store and regrettably viewing in person is not an option.
