Early 20th Century Cyma pocket watch with chain

Price

Sold

Item Reference: SA507229

Date of manufacture: 1920

Description

An early 20th Century Cyma pocket watch with chain. The watch has a signed stem-winding movement which is working nicely. The movement is protected by an inner hinged cover which has some scratches to the edge where it has been opened in the past. The watch itself measures 48mm diameter excluding the winding stem and the loop. The case is nickel. The front is in good condition while the back has three little "dings". The watch glass is in good condition, just a slight nibble on the bevelled edge. The white dial is in good condition and has blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes with a 'new old stock' single albert which measures 31.5mm long including the T-bar and the clasp. The chain is rather bright at the moment as it has been polished to refresh it but it will tone down to match the watch. The watch and chain will be sent in a new presentation box.
