Dimensions

Height = 81 cm (31.9")

Width = 43 cm (16.9")

Depth = 12 cm (4.7")

Description

This is a really super quality American drop dial wall clock, circa 1900 The case is beautifully made with fine marquetry inlay and the scrolling case to the bottom The clock movement has been dismantled, cleaned and overhauled, so it runs very well, keeping good time and also, being a 2 roll drop dial, you get the chime to the hour and also the half hour The clock has a fantastic, mellow deep "gong" Very good order and a very decorative clock Measuring: 32" / 81cm high 17" / 43cm maximum width 5" / 12.5cm depth A simple clock to hang as it is not a heavy case. You just need a good flat wall ideally, or if you have a stone wall, you'll need to settle it so it can run steady I can arrange delivery for you to most England, Wales and Scotland addresses for around £55, but please send me your postcode if you are remote or coastal, as it could be more...or you are very welcome to view and collect the clock from me in Uppingham, Rutland

Internal Ref: a13
