Dimensions

Height = 52 cm (20.5")

Width = 37 cm (14.6")

Depth = 16 cm (6.3")

Description

A lovely clean example of these ever popular dropdial wall clocks. The 8 day, fusee movement has just been fully overhauled by our BHI registered staff and carries our usual 12mths parts and labour guarantee. A 12" white painted dial with black Roman numerals and signed by the maker "C.H. BARFOOT. HUNTINGDON". Cornelius, Henry Barfoot is recorded as working in Huntingdon in 1877. A key lockable, cast brass bezel with bevelled glass, and with the much sought after very narrow wooden surround. The brass pendulum can be seen working through the brass surrounded glazed opening to the lower half of the case. Nicely carved shell style "ears" to the sides and with opening inspection doors to both the side and base of the case. A superb age related patina to the light mahogany case. A very smart, quality clock indeed. All cards accepted.
