Dimensions

Height = 58 cm (22.8")

Width = 17 cm (6.7")

Depth = 17 cm (6.7")

Description

Circa 1900-1920 this beautiful brass Corinthian Column lamp is in excellent condition. It has been professionally polished but not lacquered and rewired to UK specifications. It measures 58cm in total in height, from the very top of the lamp holder to the base; the height from the base up to the flat top of the column is 50cm. It has a base of 16.5cm square. The column is in fine guage brass which is unusual, and it bounces light from the camera, but the second image may show it more clearly. The lamp may once have been the base of a tall oil lamp. Postage and packing within the UK mainland only is included in the price; for remote parts of the UK or abroad, please contact us for a quote for delivery. It can be viewed by appointment with us in Surrey as we no longer trade through a retail outlet.
