Description

I have never had the privilege of seeing one of these dome topped caddy's with such a wonderful brass mount. The central mount is in the form of a fern, amazing top-notch engraving makes it very life-like. The interior reveal two fine removable liners which come out entirely which reveal their original interiors. Dating to around 1850 this exotic box remains in excellent condition (fine age lines to veneer in places, insignificant but mentioned for accuracy). 9" x 5 1/2" x 6 3/4" tall to top of dome.
