Height = 87 cm (34.3")

Width = 51 cm (20.1")

Depth = 49 cm (19.3")

Description

This mahogany elbow chair dates from the 1800s, it is in a nice tidy condition with a most useable seat. A couple of repairs over almost 200 years of life it is still solid and would make a good desk chair or carver for the end of the dining table. Could just be a useful additional seat too. Very keenly priced indeed it must be the best value around. Even if the seat colour does not suit your colour scheme being the knockout type of seat they are not expensive to reupholster to go with your own decor. Seat is 20 ins wide, 16 1/2 ins high and 17 1/2 ins deep
