Description

An antique silver pocket watch, 1901, William Ehrhardt. The watch has a key wound movement which is working nicely. The movement is signed Warranted English Lever and is protected by an inner hinged cover. The watch measures 50mm diameter excluding the stem and the loop. The case is silver and there are hallmarks inside the case backs for Birmingham 1901 with a maker's mark for William Ehrhardt, with works in both Birmingham and Hatton Garden. The case has a little marking but overall is in good condition for its age. The watch glass is in good condition. The white enamel dial is in lovely condition. The hour and minute hands are different colours suggesting one is a later replacement. The watch will be sent in a new presentation box. Free worldwide shipping
