Description

An antique silver pocket watch, 1918. The watch has a Swiss stem-winding movement which is working nicely. The movement is stamped 15 jewels, Swiss made. The movement is protected by an inner hinged cover. The watch itself measures 50.5mm diameter excluding the winding stem and the loop. The case is silver and there are silver import marks inside the case backs for London 1918 with the importers mark for Arthur George Rendell. The case has some bruising to the back but overall it is in nice condition for a 1918 piece. The acrylic lens is in nice condition with only the odd minor mark. The dial has a couple of faint hairline cracks although only noticeable through a jewellers loupe. The watch has its original blued steel hands. The watch will be sent in a new presentation box. Price includes worldwide postage.
