Description

A gents 9ct gold wrist watch, 1933. The watch has a 15-jewel adjusted hand-winding movement which is working nicely. The watch itself measures 33mm diameter excluding the winding crown and the fixed lugs. The case is 9 carat gold and there are hallmarks in the hinged case back for London 1933. Overall it is in good condition with just the odd shallow bruise and a few pin pricked sized "dings" to the back but nothing too detrimental at all. The lens is in good condition. The dial has a most attractive subtly textured finish, Art Deco stylised numbers and handsome hands. A new black leather strap has been fitted. The watch will be sent in a new presentation box.
